SUMMARY

I'm a Full-Stack Developer with a backend focus who delivers reliable, user-centered features end to end. I work closely with product and design, communicate clearly with team members, and thrive in collaborative teams. Known for strong problem-solving, ownership, and continuous improvement, I ship quality work on time and help teams move faster.

SKILLS

React, NextJS, TailwindCSS, NodeJS, Express.js, Typescript, Javascript, PostgreSQL, MongoDB, MySQL, Docker, Swagger, Stripe, JWT, mongoose, Auth0, Spanish, English (C1)

WORK EXPERIENCE

Inspirational Factory   **oct 2025 - Present**
Full-Stack Intership   *Chile*

- Build end-to-end product features that improve usability and reduce manual work for customers and internal teams.
- Partner closely with product/design to clarify requirements, propose solutions, and deliver on time with clear status updates.
- Participate in code reviews and stand-ups; give and receive feedback to keep quality and pace high.
- Own small projects from idea to release—planning, implementation, testing, release notes, and post-launch follow-up.

PROJECTS

VETSFORPETS   **ene 2022 - sept 2025**
Backend developer   *Remote*

- VetsForPets is an innovative web platform designed to connect pet owners with nearby veterinarians.
- The app simplifies pet care by allowing users to register their pets, find veterinary services using an interactive map, schedule appointments, and access emergency assistance.
- Users can also benefit from a rewards system that offers discounts on medical consultations, vaccines, and pet care services.
- URL: https://front-pf-vets-for-pets-main.vercel.app/

COMMANDER   **ene 2022 - sept 2025**
Backend Developer   *Remote*

- Commander Backend is a lightweight, command-driven snippet generator built with Node.js, Express, and MongoDB.
- It lets you map specific command inputs to predefined text responses, making it ideal for support teams, automation, or rapid response scenarios.
- Repo URL: https://github.com/JDXE22/commander_backend/tree/main

EDUCATION

SOY HENRY BOOTCAMP
FullStack Developer certification
